## Boolean operator

- AND اشتراک مفاهیم را می رساند  
Migraine AND propranolol AND Adult
- OR برای وسعت جستجو و افزایش نتایج  
Migraine OR Headache
- NOT برای مستثنی کردن و تفریق مفهومی خاص  
Migraine NOT Child

اگر چندین عملگر را در یک جستجو استفاده نمایید اولویت اجرای عملگرها به صورت

عملگرها فقط روی کلید واژه هایی که بلافاصله قبل و بعد از عملگر هستند اعمال می شود  
در مورد عملگر NOT تنها بر روی کلمات بعد از عملگر اعمال می شود

اگر کلید واژه ها بدون هیچ عملگری تایپ شوند به معنای استفاده از عملگر AND  
ایجاد مشکل در عبارتهای جستجویی می شود

برای مثال جستجوی زیر به شکل

Plastic bottles OR Water pollution در واقع به این صورت در اسپرنگ تلفظ  
plastic AND(bottles OR water) AND pollution

برای حل این مشکل هر عبارت جستجویی را مابین گیومه " " قرار دهید

"plastic bottles" OR "water pollution"

Abstract

Recent advances in basic cardiovascular research as well as clinical situation were the focus at the last "New Frontiers in Cardiovascular Research" meeting. Major topics included the characterization of novel cardioprotective, deciphering new players and inflammatory mechanisms in ischemic heart disease as well as uncovering microRNAs and other biomarkers as versatile and possibly causal factors in cardiovascular pathogenesis. Although a number of pathological situations such as ischemia-reperfusion injury or atherosclerosis can be simulated and manipulated in diverse animal models, also to challenge new drugs for intervention, patient studies are the ultimate litmus test to obtain unequivocal information about the validity of biomedical concepts and their application in the clinics. Thus, the open and bidirectional exchange between bench and bedside is crucial to advance the field of

121 Mentions

Altmetric calculates a score based on the online attention an article gets — the higher the score, the more online attention an article has received.

Surrounding the score can be 1 or more colours. Each colour represents a different type of online attention, like social media or news outlets.

Older articles have had more time to get noticed, so Altmetric provides context data for articles of a similar age.

This article is in the 12<sup>th</sup> percentile (ranked 101,240<sup>th</sup>) of the 344,657 tracked articles of a similar age in all journals and the 73<sup>rd</sup> percentile (ranked 2<sup>nd</sup>) of the 19 tracked articles of a similar age in Netherlands Heart Journal.

## Journal of Cardiovascular Translational Research

ISSN: 1937-5387 (Print) 1937-5395 (Online)

### Description

Journal of Cardiovascular Translational Research (JCTR) is a premier journal in cardiovascular translational research.

It is the journal of choice for authors seeking the broadest audience for emerging technologies, therapies and diagnostics, pre-clinical research, and first-in-man clinical trials.

JCTR's intent is to provide a forum for critical evaluation of the novel cardiovascular science, to showcase important and clinical - [show all](#)
